Intratek Computer, Inc. a Huntington Beach, California based corporation, was founded in 1989 as an Information Technology and Networking firm to provide state-of-the-art customized Information Technology solutions for Federal, State and County agencies, as well as leading private commercial accounts. The company has grown into a 10 million dollar enterprise with over one hundred and fifty technical positions, and facilities located in the cities of Huntington Beach, CA and Denver, CO. Although the majority of our business is in the government sector, Intratek Computer, Inc. has also enjoyed a very healthy growth in the private sector and prime contractors' arena. Our staff includes Novell, Microsoft, Citrix and Cisco Systems Certified Engineers, we are certified and authorized to provide services by most of the major IT equipment manufacturers.

We provide a complete range of services in the following areas:

- Network Design, Installation and Support
- Web Development
- Programming
- Maintenance and Repair
- Telecommunications
- Data Security and Backup Design
- Expert IT Services
- Help Desk Management
- Desktop Support
- Mainframe Operations and Support
- Education/Training in Desktop Applications and Technical Applications
